END OF SEMESTER EXAMINATIONS
MAY 2016

ECV 2102: CIVIL ENGINEERING MATERIALS I

Instructions: Answer any **THREE** questions.

Use neat well labelled sketches where required.

QUESTION ONE

- a) Differentiate between Thermoplastics and Thermosetting plastics (6 marks)
- b) State **THREE** uses of plastics in construction works (3 marks)
- c) Outline **FIVE** principal ingredients of plastics (5 marks)
- d) Outline **SIX** advantages of plastic as a construction material (6 marks)

QUESTION TWO

- a) Outline the classification of rubber and briefly explain its **FOUR** useful properties as a construction material (10 marks)
- b) Outline **FOUR** main ingredients of paint (4 marks)
- c) Explain **THREE** reasons for applying paint on construction works (6 marks)

QUESTION THREE

- a) Outline **FIVE** uses of glass in construction works (5 marks)
- b) Briefly explain the primary constituent materials of glass (5 marks)
- c) State **THREE** types of varnishes (3 marks)
- d) Outline **TWO** functions of varnishes in construction works (2 marks)
- e) Outline **FIVE** paint defects (5 marks)

QUESTION FOUR

- a) State **FIVE** types of adhesives used in construction work (5 marks)
- b) Outline **TWO** reasons that make gypsum plaster work well as a finishing coat (5 marks)
- c) Define the term Cementitious materials and outline **TWO** examples (5 marks)
- d) Outline **FIVE** uses of Bitumen in construction works (5 marks)

QUESTION FIVE

- a) Outline **FIVE** properties of materials that determine their suitability in construction works

b) Outline factors that cause deterioration of construction materials

(5 marks)

c) Briefly explain the following terms

(5 marks)

- Design
- Functionality
- Esthetic value
- Durability
- Economy

(10 marks)
