

TECHNICAL UNIVERISTY OF MOMBASA

Faculty of Engineering & Technology

DEPARTMENT OF COMPUTER SCIENCE & INFORMATION TECHNOLOGY

UNIVERSITY EXAMINATION FOR:
BACHELOR OF MECHANICAL ENGINEERING (BSME 13)

ICS 2174: INTRODUCTION TO COMPUTER SCIENCE

END OF SEMESTER EXAMINATION

SERIES: DECEMBER 2013

TIME: 2 HOURS

Instructions to Candidates:

You should have the following for this examination

- *Answer Booklet*

This paper consists of **FIVE** questions. Attempt question **ONE** and any other **TWO** questions

Maximum marks for each part of a question are as shown

This paper consists of **THREE** printed pages

Question One (Compulsory)

- a) A student desires to buy a Laptop that he can use for his research work. Explain how you would advise on the system performance issues. **(6 marks)**
- b) A firm offers a service to potential customers whereby the firm's representative calls at the customer's house and produces an image of what the proposed building improvements will look like. Explain how this service is carried out. Include a reference to the hardware and software required. **(4 marks)**
- c) Explain the following concepts **(6 marks)**
- (i) Registers
 - (ii) System Bus
 - (iii) Buffer

- d) Spreadsheet applications have a wide variety of functions which can be used. Write down the name of the spreadsheet function that you will use for each of the examples below;
- (i) Add up a series of numbers in a range **(2 marks)**
 - (ii) Determine how many cells in a range have a value of 100 or more **(2 marks)**
 - (iii) Find the number of cells in a range that contain numbers **(2 marks)**
- e) (i) Differentiate between a database and a database management system **(4 marks)**
- (ii) Describe the general organization of a relational database **(4 marks)**

Question Two

- a) Differentiate between a bit and a byte **(2 marks)**
- b) Give TWO reasons why the binary number system is utilized for modern electronic digital computers. **(2 marks)**
- c) Briefly discuss any FOUR systems management maintenance programs (processes) that windows OS provide to keep the computer in top working condition **(8 marks)**
- d) State the importance of the following tools:
- (i) Control panel
 - (ii) Windows firewall
 - (iii) Disk formatting
 - (iv) Windows explorer **(4 marks)**
- e) Explain any FOUR functions of an operating system **(4 marks)**

Question Three

- a) Name the major technologies that distinguish the computer generations (i.e. 1st to 5th) **(5 marks)**
- b) A supermarket has a number of point of sale (POS) terminals, describing what they are used for: **(5 marks)**
- c) Discuss the Instruction execution cycle **(6 marks)**

Question Four

- a) A multinational organization has offered to donate computers to your organization. The Board of Governors has requested you to advise on the operation system to be used by providing answers to the following questions:
- (i) What is an operating system? **(2 marks)**
 - (ii) Briefly explain any THREE functions of an operating system **(6 marks)**
- b) A member of the board has heard of windows file systems:
- (i) Define windows file system **(2 marks)**
 - (ii) Bring out clearly the two types of file systems supported by windows and recommend with supporting facts the best the organization can adopt. **(4 marks)**
- c) Perform the following conversions
- (i) 45 base 8 to decimal system **(3 marks)**
 - (ii) Using two complements subtract 5 from 3 and express your answer in decimal form. **(3 marks)**

Question Five

- a) Using a well-labelled diagram, illustrate the functional components of a computer system **(8 marks)**
- b) A company has a workforce of around 2000. Some work in the office using the computer system for administrative tasks, while others use the computer system on the production line for giving details of orders that need to be manufactured. Select appropriate peripheral hardware and softwares for these two application areas, giving reasons for your choices. **(12 marks)**
