

THE MOMBASA POLYTECHNIC UNIVERSITY COLLEGE

(A Constituent College of JKUAT)
Faculty of Engineering and Technology

DEPARTMENT OF BUILDING AND CIVIL ENGINEERING
HIGHER DIPLOMA IN BUILDING & CIVIL ENGINEERING

EBC 3204: ESTIMATING & COSTING

END OF SEMESTER EXAMINATION

SERIES: DECEMBER 2011

TIME: 2 HOURS

Instructions to Candidates:

You should have the following for this examination

- *Answer Booklet*

This paper consists of **FIVE** questions

Answer question **ONE (COMPULSORY)** from **SECTION A** and any other **TWO** questions from **SECTION B**

Maximum marks for each part of a question are clearly shown

This paper consists of **THREE** printed pages

SECTION A (COMPULSORY)

Question 1 (30 marks)

- a) Briefly describe the following methods of approximate estimating giving **TWO** merits and **TWO** demerits of each method.
- (i) Functional unit valuation method
 - (ii) Cubic capacity method
 - (iii) Superficial area method
- (15 marks)
- b) Briefly explain the following:
- (i) Unit rate
 - (ii) Labour constant
 - (iii) All-in-Labour rate
- (6 marks)
- c) Briefly explain any **THREE** sources of cost information
- (9 marks)

SECTION B (Answer any TWO questions from this section)

Question 2 (20 marks)

A face shovel has a purchase price of kshs. 10 million. It is intended to use the shovel in a contract lasing for six years and the resale value of shovel at the end of this period is estimated to be kshs 3 million. Using the information given below, calculate the cost of excavating one cubic meter of materials using this excavator

(20 marks)

Data

- Bucket capacity = 3m³
 - Cycle time = 5 minutes
 - Efficiency = 50 minutes per hour
 - Hours worked in a year = 1800 hours
 - Assume straight line method of depreciation
 - Interest on capital = 10% per year
 - Maintenance and repairs = 60% of the annual depreciation
 - Fuel consumption = 20 litres per hour at shs 110.00 per litre
 - Operators pay = shs 100.00 per hour
 - Banks man wage = shs 50.00 per hour
 - Assume any other necessary information
- (20 marks)

Question 3 (20 marks)

- a) Using the data given, build up a unit rate for making and fixing in position a softwood framed, ledged, braced and battened door size 800 x 2150mm consisting of 100 x 50 sticss and top 22 x 32mm middle and bottom rails, 100 x 32mm brace with 75 x 18mm tongued and grooved bottoms (per m²)
- (13 marks)

- b) Build up a unit rate for making and fixing in position a 75 x 100mm softwood rebated door frame for the door in 3 (a) (per m) (7 marks)

Data

Cost of 100 x 50mm wrot softwood	- shs 70.00
Cost of 225 x 32mm wrot softwood	-shs 50.00
Cost of 100 x 32mm wrot softwood	- shs 30.00
Cost of 75 x 18mm wrot softwood	- shs 20.00
Cost of 75 x 100mm wrot softwood	- shs 80.00

Skilled labour - shs 100.00 per hour

Unskilled labour - shs 50.00 per hour

Assume any other necessary information

Question 4 (20 marks)

Using the data given, build up a unit rate for 200mm thick, solid concrete block wall bedded in cement mortar 1:3 (per m²) (20 marks)

(8 marks)

Question 5 (20 marks)

Using the data given, build up a unit rate for reinforced concrete (1:2:4) in column bases (per m²)

Data (for question 4 and 5)

- Cost of cement	- ksh 800.00 per 50kg bag
- Cost of sand	- ksh 1400.00 per tonne
- Cost of bolest	- ksh 15000.00 per tonne
- Density of cement	- 1440kg/m ³
- Density of sand	- 1500kg/m ³
- Density of ballast	- 1400kg/m ³

Purchase price of 200 litre mixer - shs 400,00.00

Economic working life of mixer - 1750 hours

Maintenance and repairs - 30% of the annual depreciation

Efficiency of mixer - 85%

Salvage value of mixer - shs 50,000.00

Average interest per year - 26% of purchase of mixer

Insurance per year - shs 20,000.00

Diesel consumption of mixer per day - 20 litres at kshs 110.00 per litre

Mixer operator - shs 100.00 per hour

Mixer attendants - shs 50.00 per hour

Hire of poker vibrator including running costs - shs 4,000.00 per 8 hours a day

Cost of concrete blocks - shs. 80.00 per piece

Working hours per day - 8 hours

Assume any other necessary information
