

THE TECHNICAL UNIVERSITY OF MOMBASA

Faculty of Engineering &

Technology

DEPARTMENT OF COMPUTER SCIENCE & INFORMATION TECHNOLOGY

DIPLOMA IN INFORMATION COMMUNICATION TECHNOLOGY (DICT M12/S-EV/S-FT)

ECT 2105: PRINCIPLES OF OPERATING SYSTEMS

SPECIAL/SUPPLEMENTARY EXAMINATION SERIES: FEBRUARY 2013 TIME: 2 HOURS

Instructions to Candidates: You should have the following for this examination - Answer Booklet This paper consist of FIVE questions

© 2013 - The Technical University of Mombasa

a)	Using an illustration, describe the structure of operating system.	(4 marks)
b)	State and explain THREE different ways of recovering from deadlock.	(6 marks)
c)	 Briefly describe the following memory management techniques. (i) Paging (ii) Swapping (iii) Overlay (iv) Segmentation 	(8 marks)
d)	State the advantage of multi-programming concept over monoprogramming concept.	(2 marks)
Qu	iestion Two	
b) c)	State the functions of operating system. State and describe the categories of data files. Using an illustration, differentiate between coalescing and compaction. State and describe strategies of selecting a free memory hole.	(5 marks) (6 marks) (6 marks) (3 marks)
Qu	iestion Three	
b) c)	 State the functions of a memory manager. Differentiate the following: (i) Long term scheduler and short term scheduler (ii) Preemptive scheduler and non preemptive scheduler. Stage and describe the FIVE factors that affect the choice of file organization. Define virtual memory. 	(4 marks) (10 marks) (2 marks)
Qu	iestion Four	
b)	Give the disadvantages of coalescing. State the advantages and disadvantages of fixed partition. Why would first come first served scheduling algorithm not be preferred to show scheduling algorithm.	(2 marks) (4 marks) rtest job first (2 marks)
d)	Briefly describe the multiprogramming concept and how it can be implemented.	(6 marks)
e)	Differentiate between pages and frames.	(2 marks)
f)	State and describe the conditions of deadlock.	(4 marks)
Qu	lestion Five	
b)	Describe the THREE different ways into which files can be organized. (6 mar) What is the significance of managing processes? Describe the different ways of preventing the conditions for deadlock.	rks) (2 marks) (8 marks)

c) Describe the different ways of preventing the conditions for deadlock.d) Differentiate between fixed partition and variable partition.

(4 marks)
